VACUPREDATOR GRIPPING HEADS FOR PICK&PLACE OF PACKS, BAGS AND FLEXIBLE CONTAINERS

To allow the picking of flow packs, bags and flexible containers in paper or plastic, containing powders, granulates, loose products or liquids, these new gripping heads have been designed and manufactured, able of gripping all packages even with irregular conformation. Made of anodized aluminum, they are equipped with a slotted plate inside, to allow the flexible container to adapt perfectly to the suction cup and a special sponge rubber seal which, following the inevitable wrinkles that form on the flexible container during the setting phase, prevents perimeter vacuum losses.

They are particularly recommended for gripping flow packs, flexible containers for infusions, bags for sweets or similar, bags of plastic granulates, concrete, sugar or flour, etc. Their lifting force was calculated considering a minimum vacuum level of -75 KPa, the total surface enclosed within the gasket and a safety coefficient 3.

ROUND VACUPREDATOR GRIPPING HEADS

EXAMPLE OF CONFIGURATION:

VP 06 12 OF 10 15

Model:
Vacu Predator

Size:

- 06 12 (60 x 120 mm)
- 09 16 (90 x 160 mm)
- 09 21 (95 x 210 mm)
- 15 20 (150 x 200 mm)
- 20 30 (200 x 300 mm)
- 30 40 (300 x 400 mm)
- 12 (ø 134 mm)
- 22 (ø 220 mm)

Sponge rubber height (P):
for VP0612-VP0916-VP0921-VP12-VP22
15-20-25-30 mm

for VP1520-VP2030-VP3040
20-25-30-40 mm

Spacers height (N):
5 mm
10 mm
15 mm

Sponge rubber compound:
OF: ORANGE FOAM
SB: EXTRA SOFT
NF: NEOPRENE
